---

Carlos,

San Jacinto seems appropriate, and we expect the FS Report soon & I was hoping to use Barry to review it regarding the river sediment.

Thanks,

Gary Miller

**Subject:** USFWS IA

It is that time of year again. Dr. Charters is looking for commitment notices from the Regions for the USFWS IA. USFWS accounting has my current available balance at \$54,617.16 (as of 06-01-2013). At my average burn rate, that would be enough to carry me through to just after the end of the FY.

Projects currently in progress that will account for a majority of my time (document review/meetings and/or fieldwork) are:

Chino Mines -- <10%

9493968

Blackwell Zinc – 10-20%  
Devils Swamp Lake – 10-20%  
EVR-Wood -- <15%  
Brine Service Company -- <10%  
Longhorn Army Ammunition Plant -- <20%  
Patrick Bayou -- <10%  
Star Lake Canal -- <10%  
San Jacinto Waste Pits – 10-20%  
Falcon Refinery -- <20%  
Donna Canal -- <20%

Thank you for your continued support.

Barry Forsythe
